

Sales Presentation

Sectra Instant Messenger

SECTRA

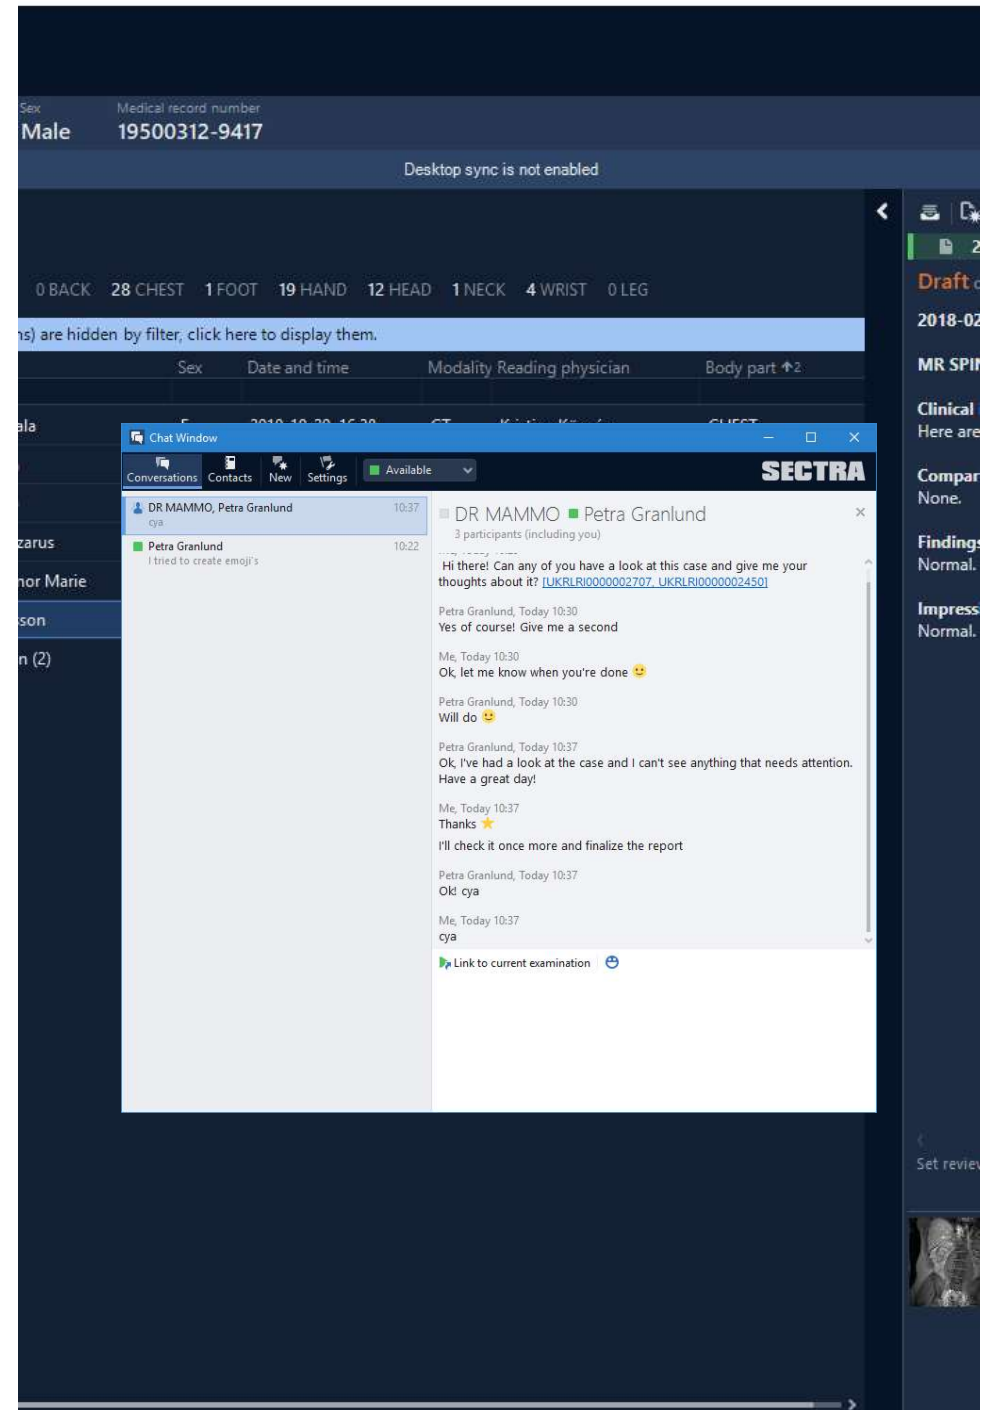

Efficient communication
within Sectra PACS, without any
additional administration or
security solutions

SECTRA

Sectra Instant Messenger

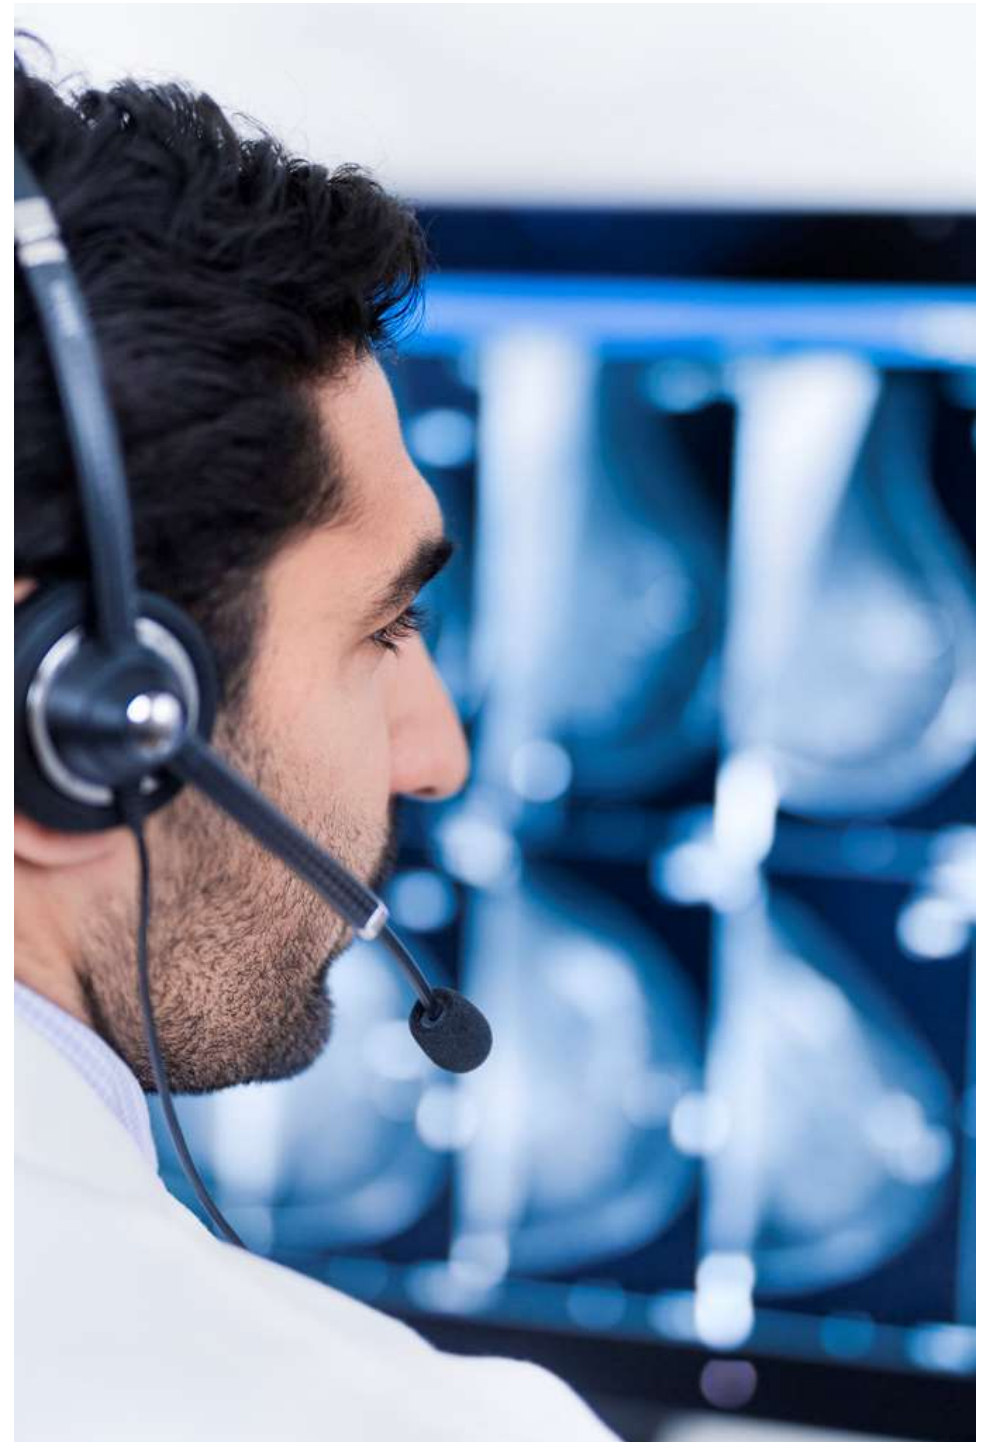

Improved collaboration

- » Instant messaging fully integrated in Sectra PACS
- » See who's online
- » Involve peers in discussions
- » Share a case

Sectra Instant Messenger Overview

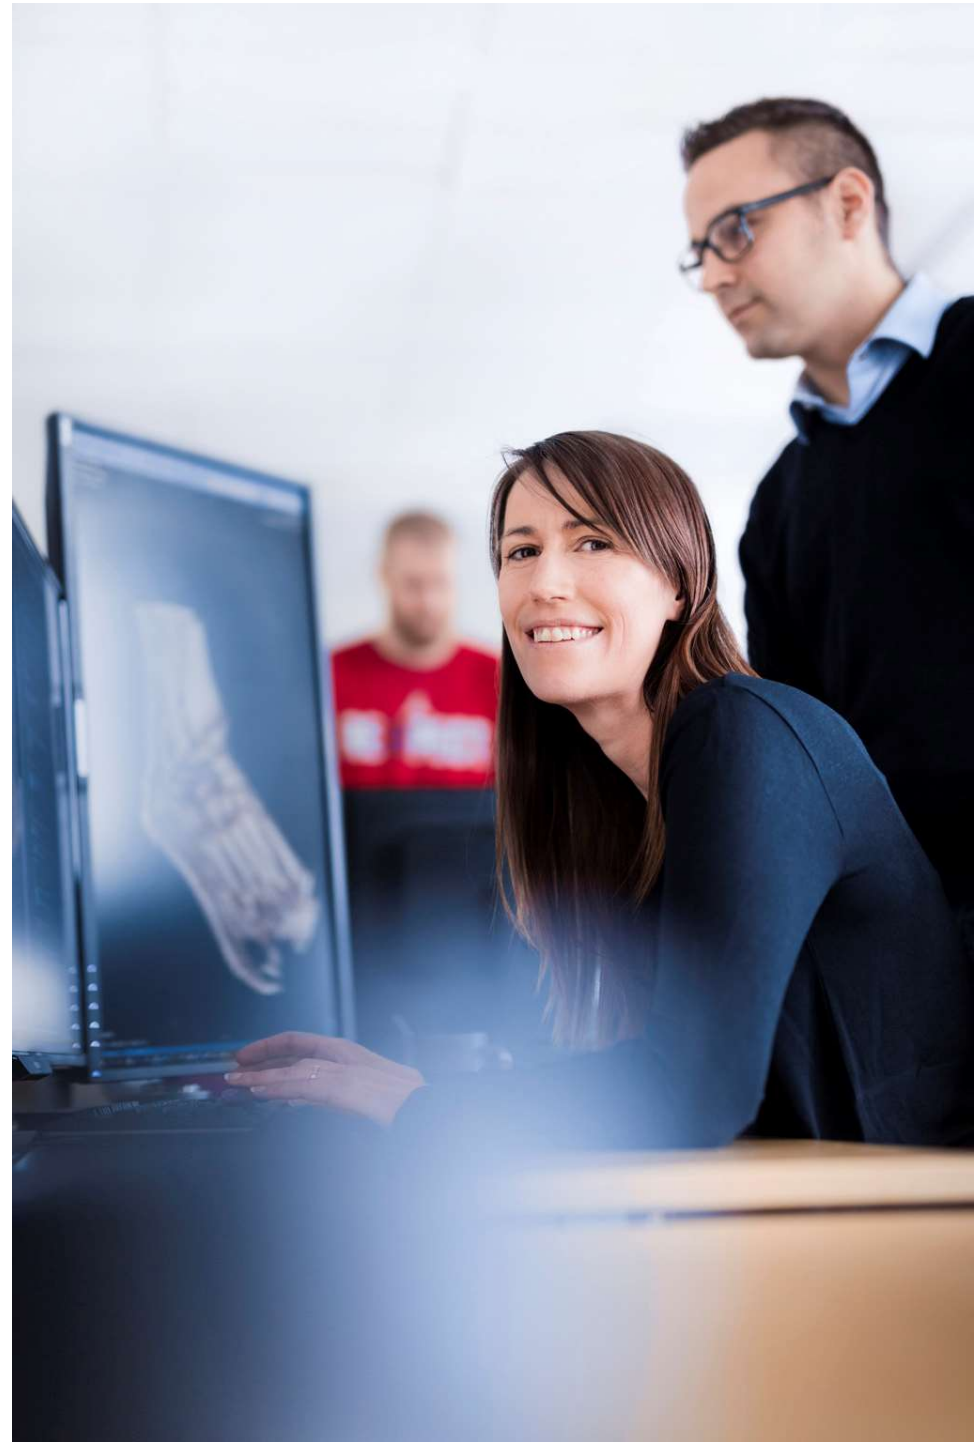

- » Secure online and offline messages in one application
- » Instantly see who's available
- » Create discussion groups to involve
- » Integration with Skype for Business

Sectra Instant Messenger

Technical requirements

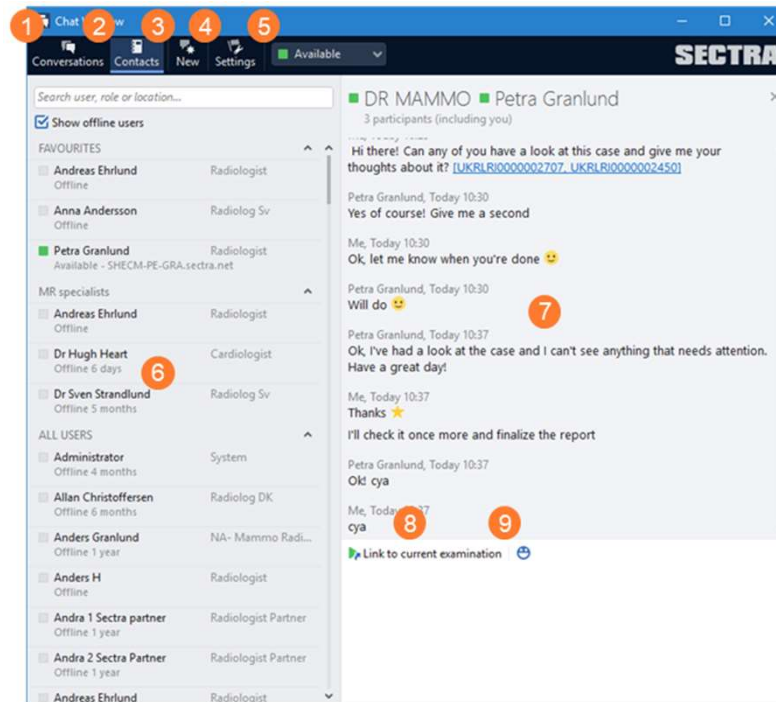

- » A Sectra VNA / PACS license and a site license for Instant Messenger and a site license for AD integration

How it looks

Sectra Instant Messenger

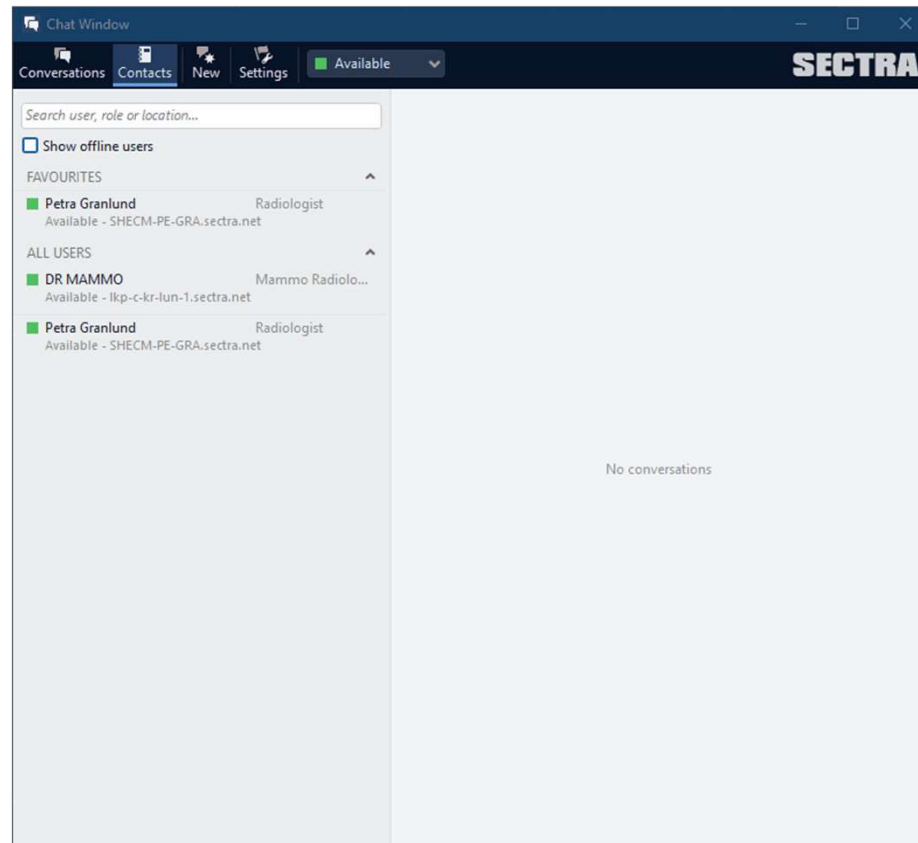

1. Manage conversations
2. View and see status of contact
3. Create a new conversation
4. Change settings
5. See / change availability status
6. List of contacts or conversations
7. Current Conversation
8. Insert link to the current examination
9. Use emoji's in conversations

SECTRA

How it works

Sectra Instant Messenger

SECTRA

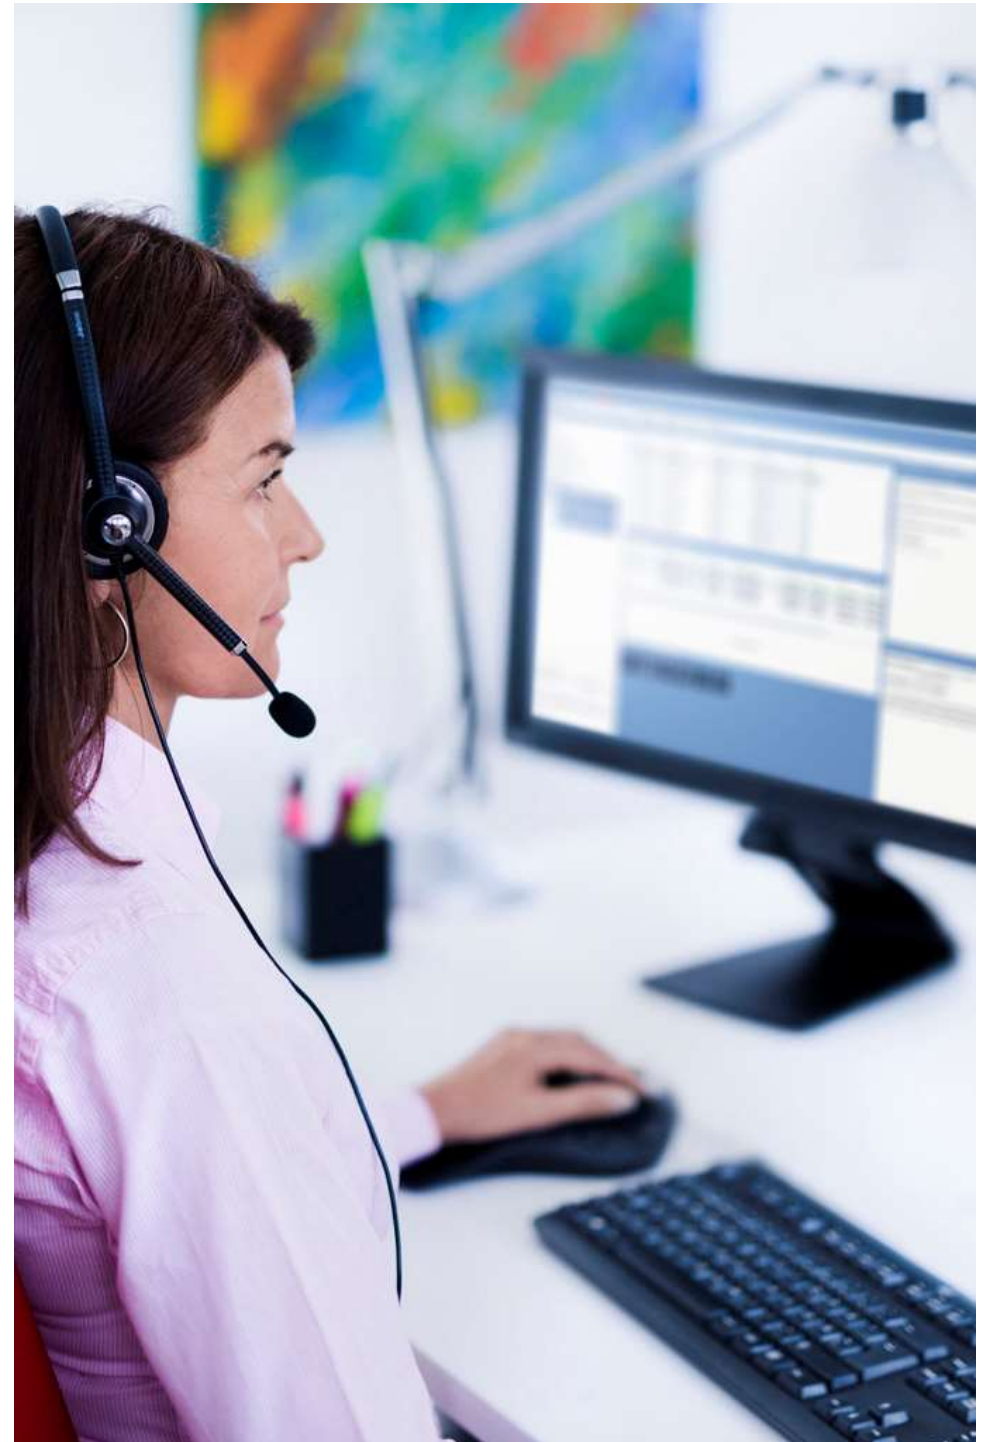

Share your screen or setup a
conference call

SECTRA

Skype for Business integration

Share the screen

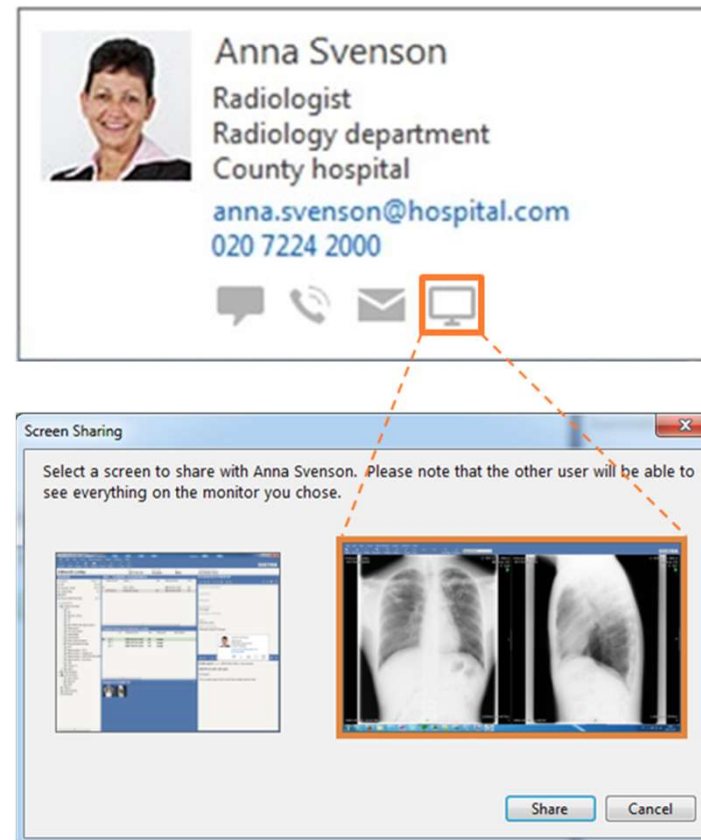

- » To quickly contact a colleague about a current case
- » Interact with a colleague in different locations
- » Share content without manual guiding

Skype for Business integration

Contact cards

- Contact card with information about the user
- From the contact card, you can now easily
 - Start a Skype for Business chat conversation from within IDS7
 - Share your screen with your colleague so he/she will see what you see

Skype for Business integration

Contact cards

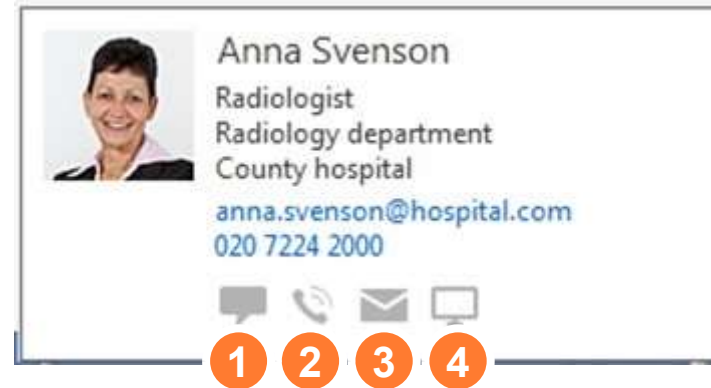

- » The contact card inside IDS7 shows the Skype for Business availability status

How it works

Contact card interaction

- » Hover a user name in the application to access the contact card
- » Select to interact in any of the following ways
 1. Chat
 2. Call
 3. E-mail
 4. Share your screen

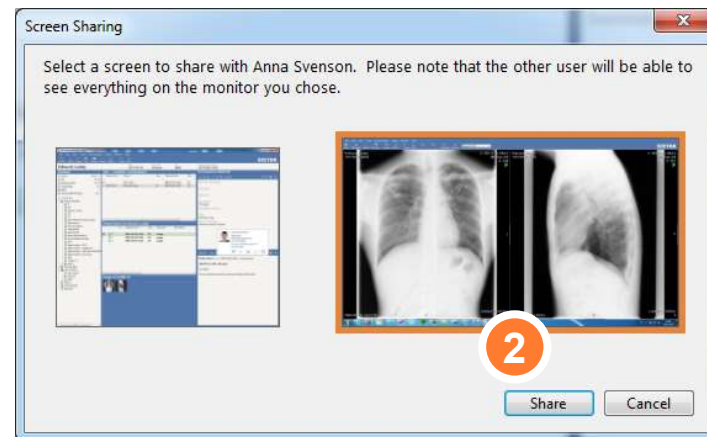

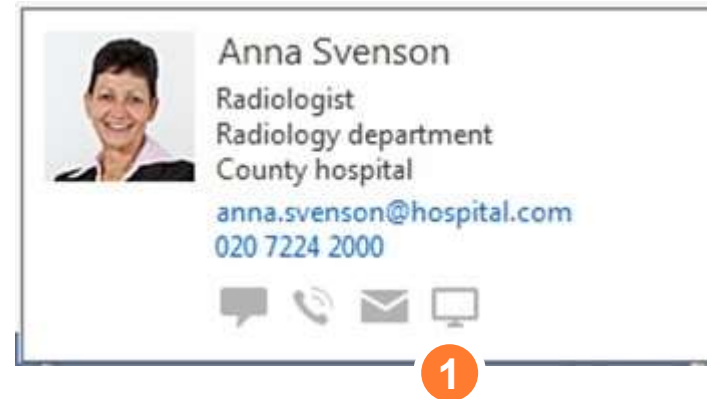

How it works

Screen sharing

1. To start screen sharing click on the monitor button in the contact card
2. In the pop-up window choose which monitor to share.

Note! The user is informed that everything on that screen will be shared, not only IDS7

Prerequisites

- » Skype for Business needs to be installed on the workstation
- » Required license: Skype for Business Integration
- » Note that an Active Directory integration is also required to be able to launch S4B from the contact cards

The image features a dark blue background with a subtle, wavy light blue pattern. In the center, the word "SECTRA" is written in a bold, white, sans-serif font. Below it, the tagline "Knowledge and passion" is written in a smaller, white, cursive font.
